Why Digital Matters

Making learning convenient and flexible for students means empowering them to study when and how they want. With 84% of college students preferring a blended learning environment, and 78% agreeing that technology contributes to successful learning, students clearly want to study online and on their mobile phones. Research shows they’re right.

1 EDUCAUSE Student Study 2016

MINDTAP

MindTap from Cengage represents a new approach to a highly personalized, online learning platform. A fully online learning solution, MindTap combines all of a user’s learning tools—readings, multimedia, activities and assessments—into a singular Learning Path that guides the user through the curriculum. Educators personalize the experience by customizing the presentation of these learning tools to their students; even seamlessly introducing their own content into the Learning Path via “apps” that integrate into the MindTap platform. MindTap can also be deeply integrated into an institution’s Learning Management System (LMS).

With Cengage’s Instructor Resources to accompany many of our books, preparing for class and evaluating students has never been easier!
