Why Digital Matters
Making learning convenient and flexible for students means empowering them to study when and how they want. With 84% of college students preferring a blended learning environment, and 78% agreeing that technology contributes to successful learning, students clearly want to study online and on their mobile phones. Research shows they're right.

MindTap propels students from memorization to mastery. Available for nearly 1000 courses, MindTap gives you complete ownership of your content and learning experience. Customize the interactive syllabi, emphasize the most important topics, and add your own material or notes in the ebook. The outcome-driven application helps you challenge every student, build their confidence, and empower them to be unstoppable.
