What separates simple memorization from true understanding? **ENGAGEMENT.**

Built on principles of learning design and created hand-in-hand with educators, Cengage Learning solutions focus on engagement, taking students through the levels of application, analysis, and critical thinking with depth and context unmatched in the market.

**MindTap**

MindTap from Cengage Learning represents a new approach to a highly personalized, online learning platform. A fully online learning solution, MindTap combines all of a user’s learning tools—readings, multimedia, activities and assessments—into a singular Learning Path that guides the user through the curriculum. Educators personalize the experience by customizing the presentation of these learning tools to their students; even seamlessly introducing their own content into the Learning Path via “apps” that integrate into the MindTap platform. MindTap can also be deeply integrated into an institution’s Learning Management System (LMS).

**CourseMate**

An interactive, online learning solution available in over 15 disciplines that increases student effort and engagement, minimizing instructor time spent on manual grading and class administration.

**VideoLab 4.0**

Herbert Zettl’s VideoLab 4.0 is the fully updated, award-winning DVD-ROM that brings a virtual video production studio right to your students’ computer! This stand-alone, interactive DVD-ROM uses demonstrations and guided practice to teach students the basics of the video production process.
