What separates simple memorization from true understanding? **ENGAGEMENT.**

Built on principles of learning design and created hand-in-hand with educators, Cengage Learning solutions focus on engagement, taking students through the levels of application, analysis, and critical thinking with depth and context unmatched in the market.

**MindTap®**

MindTap® from Cengage Learning represents a new approach to a highly personalized, online learning platform. A fully online learning solution, MindTap® combines all of a user’s learning tools—readings, multimedia, activities and assessments—into a singular Learning Path that guides the user through the curriculum. Educators personalize the experience by customizing the presentation of these learning tools to their students; even seamlessly introducing their own content into the Learning Path via “apps” that integrate into the MindTap® platform. MindTap® can also be deeply integrated into an institution’s Learning Management System (LMS).
