

Why Digital Matters

Making learning convenient and flexible for students means empowering them to study when and how they want. With **84%** of college students preferring a blended learning environment, and **78%** agreeing that technology contributes to successful learning,¹ students clearly want to study online and on their mobile phones. Research shows they're right.

Cengage Learning's *CourseMate* brings course concepts to life with interactive learning, study, and exam preparation tools that support the printed textbook.

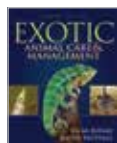

INSTRUCTOR RESOURCES

With Cengage Learning's *Instructor Resources* to accompany many of our books, preparing for class and evaluating students has never been easier!
