

# Testing & Education Reference Center

## Now from college prep to careers and beyond

Gale, a part of Cengage Learning, in partnership with Peterson's has taken this comprehensive resource and made it even more helpful for students and their parents. It has a new more user-friendly interface and new technical school content — Cengage Learning's proprietary Delmar career certifications.

### FOR ALL TYPES OF STUDENTS

*Testing & Education Reference Center (TERC)* is designed to help students — in high school, graduate school, and specialty school and beyond — make their future education decisions easier. *TERC* is loaded with information on colleges, technical schools, practice entrance exams, and certification and professional license exams that show students what to expect and how to prepare for — and excel at — the next level. Plus, the **Resume Builder** and **Virtual Career Library** make *TERC* perfect for job seekers by providing specific examples and tips for the job search.

### RESEARCH COLLEGES AND UNIVERSITIES

*Testing & Education Reference Center* provides a vast collection of information on two- and four-year institutions across the United States to help students (and parents) screen potential schools.

Intuitive searches and quick results deliver data that includes the school's location, tuition, majors, average G.P.A. of incoming students, religious affiliations if any, and much more. And when the selection comes down to a graduate school, students can find nearly 37,000 accredited programs representing a variety of disciplines.

### NEW CERTIFICATIONS

#### EXPLORE TECHNICAL SCHOOLS

With the addition of Delmar career certifications, *TERC* improves the way it serves students interested in non-college pursuits. For example, the eCourse for Medical Assisting features personalized study plans, exam subject reviews, practice questions, and detailed explanations of answers. Diagnostic pre-tests help students determine where they currently stand and how much prep they need before taking a certification exam. A timed final post-test simulates the actual exam and what the exam experience will feel like.

The Delmar certifications include tests for:

- Cosmetology (6 subjects) with exams in English and Spanish
- Auto Repair (ASE) with 9 exams in English and Spanish
- Light and Heavy Truck Repair with 8 exams
- Collision Repair with 5 exams

### HOME PAGE

## IDENTIFY FUNDING

*Testing & Education Reference Center* helps students and parents prepare financially by identifying aid sources and offering tips on how to secure available funds. *TERC* also offers one of the largest databases of scholarships and grants to assist students in funding their education. Updated and accurate information on more than 1.5 million financial awards is easily accessed.

## ACE THE TESTS

For many students, the key to testing success is “practice, practice, practice” — which is why *Testing & Education Reference Center* offers an extensive selection of online and eBook test-prep materials. Career-oriented test prep includes online practice tests for information technology, law programs, nursing programs, Air Force officer qualifying, military flight aptitude, and civil service and licensure exams.

Users will find high-school test prep for GED, AP, ISEE, COOP, SSAT and more. Those aiming toward college can find tests geared to CLEP, FCAT, SAT, ACT, PSAT, TAKS and more. Graduate school preps include GRE, LSAT, MCAT and MAT. There are even international tests covering TOEFL, TOEIC and U.S. citizenship.

## STEP UP TO A CAREER

*Testing & Education Reference Center* offers an additional option — the **Career Module**. With it students and patrons can explore career choices; assess their likes, strengths and interests; and map a career path to occupations that are most suitable to them.
