Foreword 11
Introduction 14

Chapter 1: Is Abortion Immoral?
Deciding Abortion: An Overview 19
  
  Daniel Oliver
  If we cannot agree if the fetus is a person or not, then what should guide our opinions about abortion?

Yes: Abortion Is Immoral
Selective Abortion Is Immoral 25
  Patricia E. Bauer
  People who want perfect babies often choose to abort a disabled child.

It Is Immoral to Treat Fetuses as Property 29
  Carl Estabrook
  It is degrading for women to marginalize, and dispose of, their children as they see fit.

No: Abortion Is Not Immoral
Abortion Cannot Be Regarded as Immoral 34
  Richard C. Carrier
  There are no universal moral truths; therefore, abortion cannot be labeled as immoral.

Religion Does Not Condemn Abortion 43
  Freedom from Religion Foundation
  Numerous religious organizations support abortion.

Chapter 2: Should Abortion Rights Be Protected or Restricted?
Chapter Preface 51
Religious Groups Aim to Eliminate 54
Women’s Rights
  Austin Cline
Abortion rights need to be strengthened to counteract groups that advocate forced counseling, waiting periods, restrictions, and intimidation.

Legal Threats Aim to Undermine Abortion Rights

Karen O’Connor

Legal challenges and politicians threaten abortion rights, thereby jeopardizing women’s health, personal liberty, and social and economic well-being.

Most Americans Favor Restrictions on Abortions

U.S. Conference of Catholic Bishops

Abortions should be limited to early pregnancies, and cases where rape, incest, or endangerment to the mother’s life exists.

Abortion Is a Social Failure

Misty Mealey

Unlimited access to abortions has resulted in a weakened society, along with physical and emotional health complications for women.

Chapter 3: Should Women Have Greater Access to Abortion?

Chapter Preface

Yes: Women Should Have Greater Access to Abortion

Women Need Greater Access to Abortion

Michelle Goldberg

It is almost impossible to find abortion services in 90% of U.S. counties. Only the wealthy can afford out-of-state travel for abortions.

Politicians Threaten Access to Abortions

“Anonymous”

One senator advocates the death penalty for abortion doctors; others passed a law prohibiting doctors from even discussing abortion with their patients.

Late-Term Abortions Should Not Be Banned

Jason Abaluck
The Partial-Birth Abortion Bill violates women’s abortion rights and disregards women’s best interests.

**No: Women Should Not Have Greater Access to Abortion**

We Should Strive to Reduce the Number of Abortions

*Jessica Arons and Shira Saperstein*

Social changes that make abortions unnecessary is a positive approach to preventing unwanted pregnancies.

Birth Control Methods Are Another Form of Abortion That Needs to Be Eliminated

*Life and Liberty Ministries*

Women unwittingly use contraception devices that take the life of their unborn child.

Partial-Birth Abortions Should Be Banned

*Rich Deem*

This procedure is closer to infanticide than abortion, and it places the mother at high risk for death.

**Chapter 4: Should Protesters Target Abortion Clinics and Providers?**

Chapter Preface

**Yes: Protesters Should Target Abortion Clinics and Providers**

The Supreme Court Rules in Favor of Protestors

*Michelle Chen*

After a 20-year legal battle, pro-lifers are permitted to demonstrate without fear of extortion or racketeering charges.

Killing Abortion Providers Is Justifiable Homicide

*Chuck Spingola*

Thousands of babies could be saved if abortion doctors did not exist.
No: Protesters Should Not Target Abortion Clinics and Providers

Protesters Harass Patients and Invade Their Privacy

*Center for Reproductive Rights*
Protesters create an atmosphere of hostility and violence for patients and clinic employees.

Abortion Providers Should Not Have to Work with Fear, Threats, and Violence

*Sarah Todd*
Protesters are vigilantes who are determined to use violence against those who assist women in exercising their constitutional right to reproductive freedom.

Chapter 5: Should Aborted Fetuses Be Used for Medical Research?

Chapter Preface

Yes: Aborted Fetuses Should Be Used for Medical Research

Stem Cell Research Plays a Critical Role in Medicine

*Julie Hutto*
Compassion and respect for life mandate that we pursue this scientific endeavor.

Therapeutic Cloning Is Not a Form of Abortion

*Dena S. Davis*
Fear and ignorance interfere with medical progress and should not be relevant to research.

No: Aborted Fetuses Should Not Be Used for Medical Research

Fetal Research Devalues Human Dignity

*Thomas A. Shannon*
Life begins at conception; it cannot be destroyed in the pursuit of other values.
New Scientific Breakthroughs Make Fetal Research Obsolete

*Kathryn Jean Lopez and Robert P. George*

New technologies and emerging alternatives make fetal stem cell research obsolete.
