

HOW TO BROWSE A GALE VIRTUAL REFERENCE LIBRARY TITLE FROM CHAPTER TO CHAPTER

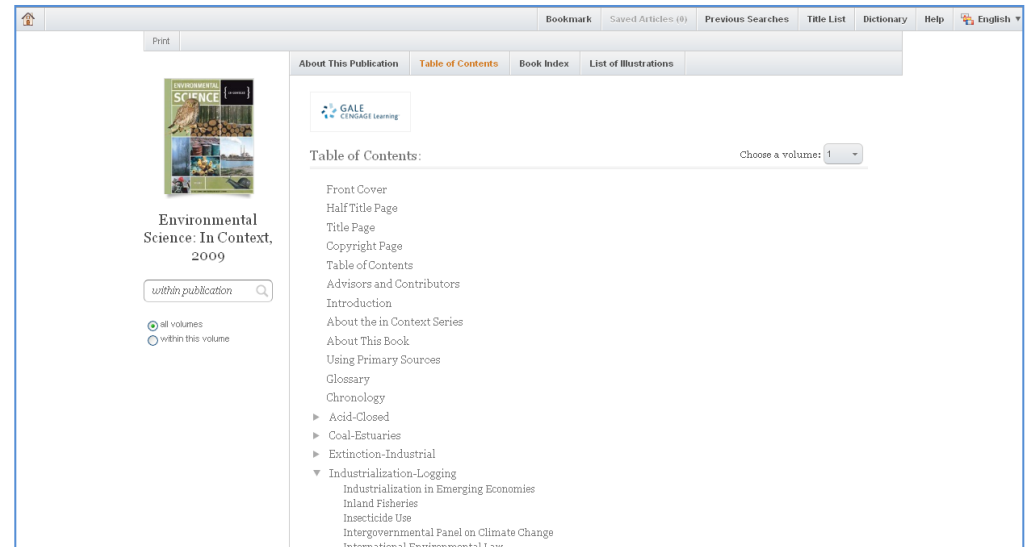

STEP ONE

Find your book on the electronic bookshelf. For this example, I'm using *Environmental Science: In Context*.

STEP TWO

Select the chapter you'd like to start with.

STEP THREE

You open up to the chapter (document) you've chosen. To move to the next/previous chapter, use the **Table of Contents** navigation tool in the upper right hand corner.

STEP FOUR

Now you've moved to the next chapter. Remember you can switch to the PDF view to see the book in its original format.
