

CONTEMPORARY AUTHORS

Continuous access to current biographical and bibliographical data

Contemporary Authors provides current biographical and bibliographical data on more than 120,000 modern authors. You will find continuously updated information on the most active authors including author-provided updates, expanded entries, bibliographies, awards, and recent update information.

Search Features

Basic search

Basic Search is a simple search. Basic Search applies a proprietary algorithm to deliver the most relevant search results based on your search term(s).

You will find several search options in the basic search drop box: Basic Search, Author, and Name of Work.

- **Basic Search** is a good all-purpose search.
- **Author** searches for entries about a particular author.
- **Name of Work** searches for entries about a specific work.

Advanced Search

Advanced Search allows you to perform a variety of customized searches ranging from simple to complex.

Advanced Search offers search indexes like Name of Work, Person-By or About, and Entire Document. Choose the desired fields to search from the drop boxes, and enter search terms in the corresponding search boxes. Connect the fields with the operator you need – AND, OR, NOT. Use the **More Options** area to include or exclude different kinds of content from your results. For more detail, please refer to Help.

Person Search

Person Search allows you to search for individuals covered within Contemporary Authors by name or based on criteria like gender, ethnicity, occupation, etc.

Type in all or part of the name of an individual, or select criteria listed under More Options. Then, click **Search** to generate a list of matching individuals covered within the resource. Click one of the links to generate a list of search results related to the selected individual.

Works Search

Works Search allows you to search for literary works covered within Contemporary Authors by title or based on criteria like publication year, author gender, author nationality, etc.

Type in all or part of the title of a work, or select criteria listed under More Options. Then, click “Search” to generate a list of matching titles covered within the resource. Click one of the links to generate a list of search results related to the selected work.

Topic Finder

The **Topic Finder** tool generates a visual representation of your search results by topic and subtopic.

Topic Finder results are organized based on the frequency of occurring terms, allowing you to hone in on targeted keywords, envision connections between topics, and create new paths of inquiry. Use Topic Finder if you're having trouble coming up with a research topic, when you have an idea for a topic and want to investigate related topics, or when you want to narrow your search results because a search returns a large number of results.

As you click around in Topic Finder, results on the right update dynamically, allowing for one-click access into relevant content. Simply click on an article to view it.

Term Frequency

Use the Term Frequency tool to find out how often your search term occurs in Contemporary Authors entries over time. You may click and drag the resulting graph to zoom in on a particular time period. Click a point on the graph to retrieve search results for that year.

Search Results

After a successful search, results are displayed on the left of the screen. Scan the list of results to locate documents to fit your research needs.

Simply click on an entry's title to view the result. You can change the sort order of your results by using the **Sort By** drop box. You can filter search results using options listed to the right of the results list.

Document Features

Document View

Clicking on a document title takes you to the entry. The top of the entry provides some of its source information, as well as access to the **Listen** tool. Click this tool to have the article read aloud to you.

Tools

Document Tools are available in the box to the right of a document.

- Click **Citation Tools** to generate a citation using MLA, APA, or Chicago style.
- Use **Highlights and Notes** to annotate important text. Click and drag to select the text, choose your highlighter color, and add notes to the selection. Print, email, download, or send the result to Google or Microsoft to retain your highlights and notes with the result. You can also click the **More** button in the database banner, and select Highlights and Notes to access a summary. *Once you leave the database, any content that you have saved is erased to protect your privacy.*
- **Send to Google Drive/OneDrive** to export the result to your existing Google or Microsoft account, allowing you to access it indefinitely. A *Contemporary Authors* folder is automatically created to make it easy to find your exported documents.
- **Print, Email, or Download** the document to keep a copy of the result, including any highlights and notes you've added.
- Use **Save to My Folder** to add the article to a temporary session folder available under the **More** button in the banner. Use this feature to gather several articles and then cite, print, e-mail, download, or send to Google Drive or OneDrive all at once. *Once you leave the database, My Folder is erased to protect your privacy.*
- Select **Translate** to view a machine translation of the document in the language of your choice.
- Click **Bookmark** in the banner to create a link back to practically any page you choose. You can copy and paste the link anywhere you'd normally share a URL, making this tool a great way to share individual documents, searches, results in My Folder, and more.
