

EXPLORE SCIENTIFIC CONCEPTS

GALE IN CONTEXT: SCIENCE

SCIENTIFIC REFERENCE

Learn about topics in key subjects like biology, chemistry, physics, earth science, and more.

INTERACTIVE SIMULATIONS

Break-down complex scientific problems by entering variables and running tests.

MULTIMEDIA

Pictures, videos, podcasts, and other audio files.

NEWS AND MAGAZINES

Explore how science is impacting the real-world.

ORGANIZE RESEARCH

Citation Tool: Copy and paste your citations, you don't have to write them!

Highlights and Notes: Find the most important parts of your research and highlight them for later.

SHARE MATERIALS

Get Link: Copy and paste a URL linking directly to your content.

Google/Microsoft Drive Integrations: Send important information right to your drive and access at any time.

CUSTOMIZE YOUR EXPERIENCE

Translate: Choose the language of the navigation and article text.

Text Manipulation: Change the font, size, and color of what you're reading.
