SPOTLIGHT
Gale Pages

CUSTOMIZE YOUR READY TO USE WEBSITE

Gale Pages is a customizable site for your valuable resources. It provides a clear access point for library users to explore everything your library offers. Add your Gale Page to your website with one simple link that will never change, no matter how often you update your pages.

CONNECT USERS TO YOUR LIBRARY RESOURCES

SINGLE ACCESS POINT
Create a single access point for all library resources. Add your library catalog, videos, quick links, and custom widgets to ensure users can access all your resources from one place.
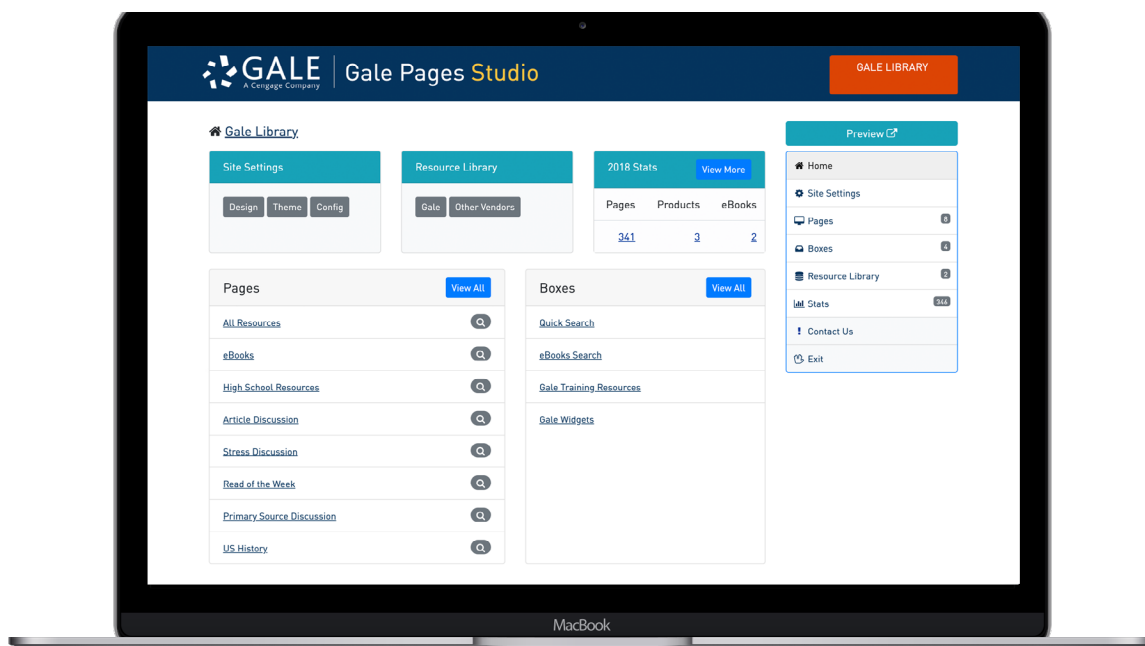

CUSTOMIZED CONTENT
Customize your content by adding pages, boxes, and more. Support library events, special projects, specific subjects, and more by creating pages with the relevant resources.

ON DEMAND CHANGES
Organize your complementary website to provide access to all library resources. Gale Pages Studio allows you to easily make changes and instantly personalize your site.

DASHBOARD MANAGER
Utilize the dashboard to manage your site. Modify site settings, update resources, preview changes, and access statistics to measure traffic to your site.

EMPOWER™ ACCESS

QUICK CUSTOMIZATIONS

Login to **Gale Pages Studio** anytime to customize your site. Access the areas mentioned below to make some of the most popular enhancements to your Gale Page.

If you need further assistance using Gale Pages Studio, connect with your Customer Success Manager.

SITE SETTINGS:

Update your Gale Page to reflect your institution. Enter a library name and link for your header, and choose site colors.

RESOURCE LIBRARY:

Modify Gale resource descriptions to target your users, and add additional resources.

PAGES:

Support the needs of your institution by creating and editing pages on your Gale Page site. Highlight and organize resources to support upcoming events, projects, departments, and more. Choose from available templates to add resources, trusted websites, and special content.

BOXES:

Feature unique content by adding or updating a box on your Gale page. Display library contact information, your Twitter feed, a YouTube video, eBooks, database, and more. Choose a box type and add it to specific locations or all pages on your site.
