

# Academic OneFile

## Provide Access to Curriculum-Aligned Research Sources

Connect students to the information they're looking for with tools that make discovery fast and easy.

**Academic OneFile**, Gale's premier periodical resource, provides millions of articles from over 17,000 scholarly journals and other authoritative sources, including *Nature*, *The Economist*, and *The New York Times*, in PDF and HTML full-text formats. In addition, students have access to thousands of podcasts and transcripts from NPR and CNN and videos from BBC Worldwide Learning.

With extensive coverage in key areas of study, collections of curated content supporting the concepts and topics being discussed in class include:

- Criminal Justice
- History
- Political Science
- Economics
- Marketing
- Psychology

## User-Friendly Tools and Features

- **Cross-search** **Gale eBooks on GVRL** with **Gale In Context** resources and **InfoTrac** via PowerSearch, and **InterLink** functionality connects your GVRL eBooks to **Gale Researcher** to help students locate related content in a single seamless search.
- **Relevance sort feature** delivers the most relevant articles among the first search results returned.
- **Browse by discipline** enables students to find targeted results even if they are unfamiliar with advanced search strategies.
- **Full-text scholarly articles** within *Academic OneFile* are discoverable with Google Scholar and indexed by all the major discovery service providers.
- **Mobile Responsive** design makes it easy for students to access resources from a tablet and other mobile devices.
- **Language translation** tool supports differentiated learning and diverse demographics by translating content into more than 30 languages.
- **Readspeaker** text-to-speech technology creates audio versions of content which are ideal for auditory learners, the visually impaired, and learners on the go.

# COLLABORATE, INNOVATE, INVIGORATE

## Integrated workflow tools from Google and Microsoft

### Google for Education Partner

Gale uses popular Google Apps for Education tools to support organizational and study skills, encourage collaboration, improve engagement, and foster critical thinking. This integration makes it easier for students to find and use relevant, authoritative information—**anywhere, anytime, and on any device:**

- Seamless user login—After authentication to *Academic OneFile*, sign in using Google account credentials, including Gmail.
- Integrated Google Tools—Save, share, and download articles using Drive and Docs.
- Chrome apps—Quickly access articles from tablets, mobile devices, and PCs.

### Microsoft Office 365

**Academic OneFile** is also integrated with Microsoft Office 365 tools, further enabling students and faculty to access Gale content with ease. These easy-to-use collaborative tools allow users to:

- Sign into Microsoft Office 365 with Microsoft credentials, after authentication in Gale products.
- Store, sync, and share files in the cloud by downloading Gale content to their OneDrive account.
- Easily transfer downloaded OneDrive content for use in other Microsoft tools like OneNote and Classroom.
