SCOPE AND CONTENT NOTE

This collection concerns United States relations with Panama, particularly Operation Just Cause and its aftermath. The United States grew increasingly displeased with the regime of Panamanian strongman Manuel Noriega in the late 1980s as Noriega's connections with South American drug cartels became evident. In the summer of 1989, the U.S. became more concerned after Noriega subverted the electoral process and encouraged violence against opposition political opponents. In December 1989, following attacks on members of the U.S. armed forces stationed in Panama, the United States struck back in Operation Just Cause, its mission to restore democratic institutions in Panama and arrest Noriega for his role in international drug smuggling. The brief military operation proved successful, and Noriega, after first alluding capture and taking refuge in the Papal Nuncio's residence, surrendered to U.S. authorities. He was transported back to the United States, stood trial on numerous drug-related charges, and was convicted and sentenced to prison.

This collection includes letters, memoranda, reports, papers, cables, and notes related to all aspects of our relations with Panama. Materials document high-level diplomatic efforts to resolve the situation in Panama as well as plans and preparations for military action there. Additional materials provide insight into the actual military operations, loss of American military personnel, and civilian and military casualties suffered by Panama. The materials document U.S. relations with other Latin American countries regarding the Panama crisis. Some letters and memoranda document Congressional interactions over sanctions and military operations against Panama. Internal staff deliberations regarding post-operation policy provide insights into the manner and methods by which the United States supported the reestablishment of democratic institutions and police forces within Panama. However, again, much of this material remains closed currently.

SOURCE & EDITORIAL NOTE

The documents reproduced in this publication constitute the complete FOIA Request 1999-0186-F Records on Panama—Operation Just Cause. These are records of George H.W. Bush, in the custody of the George Bush Presidential Library, College Station, Texas. All documents comprising this FOIA request has been microfilmed in their entirety and in the arrangement designated by the Bush Library. In addition, document withdrawal sheets have been microfilm for the use of researchers.

This collection comprises the content of FOIA 1999-0186-F. The Records that are responsive to this FOIA request were found in five collection areas—Bush Presidential Records: WHORM Alphabetical Files; Bush Presidential Records: WHORM Subject Files; Bush Presidential Records: Staff and Office Files; Bush Vice Presidential Records: Staff and Office Files; and Quayle Vice Presidential Records: Staff and Office Files. As policy, WHORM Alphabetical Files and WHORM Subject Files are processed at the document level. Staff and Office Files are processed at the folder level, that is, individual documents are not selected and removed from a folder for processing. While this method maintains folder integrity, it frequently results in the incidental processing of documents that are not wholly responsive to the subject area.

SUBJECT INDEX

The first number after each entry refers to the reel, while the four-digit number following the colon refers to the frame number on which the file folder containing material on the subject begins. For example, 1:0019 refers to the folder that begins at frame 0019 of Reel 1. These subjects will not necessarily be found at the beginning of the designated folder, but will be located within it. This Subject Index is best used in conjunction with the Reel index, which lists not only folder locations but folder titles as well.
