PUBLISHER'S NOTE

Harvester Microform already have available an unparalleled microfiche library of British Political Pamphlets. This new collection adds depth and range to the material already reproduced and is a landmark in Labour publishing. As part of the famous Independent Labour Party Archives, the pamphlets included are those received, acquired, and purchased since the formation of the Independent Labour Party in 1893 though many pamphlets predate this and the series begins in 1884.

The ILP became the largest and most influential of British socialist organisations and its history is in large part the story of the early growth of working-class parliamentary power. The pamphlets here illustrate what influenced the ILP, what was read, the personal connections of the main protagonists, the organisation exchanges with groups and parties, the full range of the social, cultural and political concerns and how they were often inextricably combined.

Every attempt has been made to avoid duplication of material available elsewhere in our pamphlet and leaflet collection and certain groups and parties have been omitted. Thus we have not included material from the British Labour Party, the TUC, the Fabian Society (apart from some rare local branch material), the Social Democratic Federation, and the War Resisters' International.

The coverage of this project is quite exceptional. The range of pressure groups and radical presses include the National Temperance League, Land Nationalisation Society, Christian Social Union, Humanitarian League, Glasgow Trades Council, Labour Prophet, Women's Emancipation Union, Brotherhood Trust, Commonweal, Metropolitan Radical Federation, United Kingdom Alliance, Clarion, Socialist League, Dundee Labour Church, Hammersmith Socialist Society, Legitimation League, - and a great many others. This brief listing only hints at the richness of the collection which becomes increasingly full after 1900.

The series will be published in parts in chronological order. A complete listing will appear at the beginning of each part with the relevant section of the listing being reproduced again at the beginning of each year. An author index appears on the first fiche.

Many of the pamphlets and leaflets are undated. After discussing the problem with librarians and scholars Harvester Microform has given a date of publication to all items - with a varying degree of certainty and accuracy. Where the date of publication, within two or three years, has been inferred from reliable internal or external evidence, it appears thus: 1890? If there is no evidence for a more accurate date than within five or ten years, it appears thus: c 1890?

All documents on the listing have been numbered with a code indicating the year of issue and the number of each document within the year of issue. Thus 1896/3 means that this is the third document in the 1896 listing. The material has been filmed in the order of the listing. The contents of each fiche are clearly shown on the fiche headers, and in this particular case the document's reference on the header reads 1896: 1896/1 -- 1896/5 (cont. on card 93).

Document 1896/3 appears on this fiche and can be easily traced.

A group/organisation cumulative index will be prepared as the programme proceeds but this will not be issued until nearer the completion of the series. A cumulative author index will also be issued. Usually London is the place of publication when none is given and, when there is no significance in the publishing body, only the town of publication is given. When complete this will be a microfiche library of the greatest significance offering a new body of research and insights into a great mass of little known or unknown socialist presses and pressure groups.

A Note on the Material.

Attention should be drawn to the nature of some of the original material. This was sometimes produced with an eye to economy and printed on poor paper; and a number of the covers have been printed black on dark red. These original characteristics occasionally present difficulties of image and contrast which stringent tests and camera alterations cannot entirely overcome. "Best Copy Available" targets have been inserted where applicable and every effort has been made to minimise these difficulties. We have sought to exercise responsible care in the production of this unique pamphlet collection and to meet the standards established by the National Microform Association (NMA) and the American National Standards Institute (ANSI).

COMPLETE LISTING

1898 - 1902

PAMPHLETS AND LEAFLETS
OF SOCIAL AND REFORM MOVEMENTS SINCE 1884

1898
