RECORDS OF THE U.S. DEPARTMENT OF STATE RELATING TO  
INTERNAL AFFAIRS OF POLAND, 1955-1959

Scholarly Resources has published on microfilm the U.S. Department of State Decimal Files 748, 848, and 948, titled *Records Relating to Internal Affairs of Poland, 1955-1959*.

The materials in these Decimal Files have been microfilmed in the exact order and condition in which they are found in the holdings of the National Archives and Records Administration. Those documents that have not yet been declassified were removed prior to filming and have been replaced with notes indicating their absence.

The documents found in this file are predominantly instructions to and despatches from U.S. diplomatic and consular staff regarding political, economic, military, social, and other internal conditions and events in Poland. Other types of documents represented are reports and memorandums prepared by State Department staff, communications between the State Department and foreign governments, and correspondence with other departments of the U.S. government, private firms, and individuals.

Decimal Files 748, 848, and 948 are parts of the General Records of the Department of State, National Archives Record Group 59.

### THE DECIMAL FILING SYSTEM

From 1910 to 1963 the State Department used a decimal filing system to organize its central files, which subsequently became known as the "Decimal Files." This filing system is basically a numerical subject index; documents are assigned file numbers according to the subject they cover. The numerical-subject listing of documents for Classes 7, 8, and 9 begins on page 1 of this *Guide*.

In 1950 the system was reorganized to meet the changing needs of the State Department. The classes were expanded to ten, and the subject areas were redefined. The post-1949 classes are:

- Class 0: Miscellaneous
- Class 1: Administration of the U.S. Government
- Class 2: Protection of Interests (Persons and Property)
- Class 3: International Conferences, Congresses, Meetings, and Organizations,  
United Nations, Organization of American States, Multilateral Treaties
- Class 4: International Trade and Commerce, Trade Relations, Treaties, Agreements,  
Customs Administration
- Class 5: International Informational and Educational Relations, Cultural Affairs and  
Programs
- Class 6: International Political Relations, Other International Relations
- Class 7: Internal Political and National Defense Affairs
- Class 8: Internal Economic, Industrial, and Social Affairs
- Class 9: Other Internal Affairs, Communications, Transportation, and Science

The records reproduced in this publication are from Classes 7, 8, and 9 for the period 1955-1959.

Each document's file number includes four elements of classification. An example is given below:

8	48	•	12	/ 11-2055
(1)	(2)		(3)	(4)

(1) Class Number. The decimal filing system begins with ten major classes, each corresponding to a broad subject area. All the documents in this publication are in Classes 7, 8, and 9, which designate materials on the internal affairs of states. (Class 7 covers internal political and national defense affairs; Class 8 covers internal economic, industrial, and social affairs; and Class 9 covers other internal affairs, communications, transportation, and science.)

(2) Country Number. Every country was assigned by the Department of State an identifying number. All documents in this publication have the country number of 48, designating Poland.

(3) Subject Number (follows the decimal point). Within each Decimal File class, a numerical outline of subjects is developed to allow filing of documents by topic. Subjects can be as general as "Political Affairs" and as precise as "Disposal of the Dead." In this example, the numerical-subject outline for Class 8 reveals that this document deals with subject 12, which is lotteries.

(4) Document Number (follows the slash). From July 1944 on, the document number reflects the date of the document's creation. For example, a document dated November 20, 1955, would be numbered 11-2055. This numbering system also is used for documents that were created before July 1944 but not filed until after that date.

## USING THE MICROFILM

At the beginning of each roll of film, the researcher will find the *Guide*, consisting of a brief introduction, the numerical-subject listing of documents, and the roll contents.

### Locating a Document by File Number

When you know the file number of a document and wish to locate it on the microfilm, follow these steps:

(1) Go to the microfilm Roll Contents, which gives the file number of the first and last document on each roll. Using this information, determine the appropriate roll.

(2) Place this roll on the microfilm reader. Remembering that the documents are filed in numerical order, turn to the desired document.

### Locating a Document by Subject

When you want to examine documents addressing a particular subject, follow these steps:

(1) Check the subject index of the printed *Guide* to determine the file number of the topic.

(2) Check the microfilm Roll Contents to determine the roll or rolls of film on which documents with this file number appear.

(3) Place this roll on the microfilm reader and turn to the material that you wish to examine.

## CITATION OF DOCUMENTS

A general form for citing documents from Decimal File material is:

[Sender] to [recipient], [date], Department of State, Decimal File [appropriate file number], General Records, Record Group 59, National Archives, Washington, DC.
