Missionary Files, MECS

1896-1899

12 Reels

Processed by: Archives staff at the United Methodist Church Archives of the General Commission on Archives and History, a general agency of The United Methodist Church located in Madison, New Jersey.

How to Use this Finding Aid

The following pages contain an administrative history of the agency which gives summary information about the agency's history and development; followed by a general description of the collection in the scope and content note. If more detailed information is warranted then series descriptions also appear. The container listing appears last and is the listing of material in each box, or container, of this collection.

The reel listing section is essentially a listing of file folders, or artifact items, in the collection. Each folder, or item, is listed next to the reel on which it can be found. Each folder also lists the inclusive dates of the material in the folder.

Restrictions

Denominational agency journals, reports and committee minutes are open to the public unless they have been closed in accordance with requirements specified in the *Discipline*. Denominational agency staff office records are closed for 25 years after creation. Personnel records are closed for at least 75 years. Appeals can be made to the General Commission on Archives and History, P.O. Box 127, Madison, NJ 07940.

Detailed use restrictions relating to our collections can be requested from the office of the archivist at the General Commission on Archives and History. Before using any material for publication from this collection a formal request for permission to publish is expected and required.

Source of Acquisition

This material was acquired under paragraph 1711 of the *Discipline* of The United Methodist Church which requires a normal and routine transfer of agency records to the Archives. Please contact the Archives if you have any questions about the origin or transfer procedure of an individual series, or components, of this collection.

Preferred Citation

When citing material from this collection please use the following format: *Direct reference to the item or its file folder*, Missionary Files Board Correspondence (1896-1899), United Methodist Church Archives - GCAH, Madison, New Jersey.

History Note

For a complete history please refer to the Agency history volume for this record group. The correspondence in this part was created under the Board of Missions of the Methodist Episcopal Church, South. The mission agency underwent several name changes and reorganizations from its creation in 1846, but finally settled on Board of Missions around 1910. The material in this subseries represents the foreign missionary concerns of the Board.

Scope and Content Note

The missionary files series is composed of correspondence from missionaries in the field to the Board of Missions and correspondence from the Board to its missionaries. The former we refer to as "missionary correspondence," while the later is "board correspondence." The files may also contain reference material about missionaries, or about mission stations or conference. The filing arrangements reflect different systems used at the Board over periods of time. No attempt has been made to alter or restructure the original filing system.

This series of board correspondence contains letters sent by staff of the Board of Missions to various missionaries, lawyers, banks and others involved in the administration of the agency's task. These letters were preserved in letterpress volumes. There were twelve volumes in this series. In part they are responses to missionary letters found in Volume II, Part 1 of this record group; though the bulk time periods of the two volumes do not overlap.

Organization and Arrangement

The material has been kept in its original letterpress book order. The volumes were organized by years. Each volume had an index which showed where a particular person's letters were located. This index has been placed at the end of this volume.
