INTRODUCTION

The **History of Education**, a retrospective monograph collection on microfiche, consists of educational treatises and general works in education published from the fifteenth through the nineteenth centuries. As a research collection, **History of Education** is designed to be comprehensive in scope, encompassing five centuries of primarily European and North American educational material. Modern educational theory and practice have been profoundly influenced by the major writers contained in this collection. The **History of Education** is based on the extensive holdings of the Milbank Memorial Library, Teachers College at Columbia University, and the inclusion of holdings from other institutions is in the planning stages.

The collection is published in units, four times yearly; each unit contains approximately 1,250 microfiche cards. The current unit (16) consists of microfiche numbers 18,759 - 20,008 equivalent to a total of 468 titles. The majority of this unit consists of works filmed from rare and valuable editions of 18th and 19th century books in the holdings of Milbank Memorial Library. Noteworthy examples include first editions of important and widely-known works by Johann Heinrich Pestalozzi, John Locke, John Lancaster, Jean-Jacques Rousseau, Johann Bernhard Basedow, and Karl Froebel. Rare copies of lesser-known and poignant works offering parental guidance are also included: *A Mother's Advice to Her Son and Daughter* (Marchioness de Lambert), *Correspondence Between a Mother and Her Daughter at School* (Mrs. Taylor), *The Parents' Friend*, *The Mother's Book* (Lydia Maria Francis Child), and *A Small Help, Offered to Heads of Families, for Instructing Children and Servants* (J.G.). Other prevalent subject areas include the education of women, the education of the deaf and blind, Christian education, instruction of young children, and physical education.

The **History of Education** collection will eventually contain 9,000 to 12,000 titles on 49-frame positive microfiche with a reduction ratio of 24x. This film, employing a silver halide emulsion, meets all industry standards for archival permanence. The microfiche heading has been designed to industry standards. The eye-legible, abbreviated title of each work is centered on the top line of the Document Description Area, with the author and imprint date appearing directly beneath. The information contained in the right-hand field of the heading, the Sequential Information Area, offers identification unique to the work: the sequential fiche number in the unit, the number of fiche cards comprising the title, the sequential card number for the title, and the range of pages filmed on the card. The Identification Area is left blank for any local information that libraries may wish to add to the heading. Each entry in this guide contains the main entry, title, imprint information, and the sequential fiche number or range of numbers.

SAMPLE HEADING

IDENTIFICATION AREA	DOCUMENT DESCRIPTION AREA	SEQUENTIAL INFORMATION AREA
	WOLFGANG RATICHUS ... M. RATICH. 1872. HISTORY OF EDUCATION	FICHE 1283 CARD 1 of 3 pp. [1]-77

This guide provides access to the unit by main entry and by fiche number. Each entry is checked in the Library of Congress Name Authority File. If not found, it is searched in the NUC Pre-1956 Imprints and, finally, in one of the national bibliographies. In the event that a name does not appear in any authority source, the title page form is used. Fiche numbers follow each record and correspond to the microfiche numbers for that title.

Sample Entry

RATICH, Wolfgang, 1751-1635.
Wolfgang Ratichius, oder, Ratke :
im Lichte Seiner und der Zeitgenoussen
Briefe und als Didacticus in Gothen
und Magdeburg / Originalbeitrag ...
von G. Krause. -- Leipzig : Dyk, 1872.
