## Missionary Files, Methodist Church

1912-1949

311 Reels

**Processed by:** Archives staff at the United Methodist Church Archives of the General Commission on Archives and History, a general agency of The United Methodist Church located in Madison, New Jersey.

### How to Use This Finding Aid

The following pages contain an administrative history of the agency which gives summary information about the agency's history and development; followed by a general description of the collection in the scope and content note. If more detailed information is warranted then series descriptions also appear. The container listing appears last and is the listing of material in each box, or container, of this collection.

The reel listing section is essentially a listing of file folders, or artifact items, in the collection. Each folder, or item, is listed next to the reel on which it can be found. Each folder also lists the inclusive dates of the material in the folder.

### Restrictions

Denominational agency journals, reports and committee minutes are open to the public unless they have been closed in accordance with requirements specified in the *Discipline*. Denominational agency staff office records are closed for 25 years after creation. Personnel records are closed for at least 75 years. Appeals can be made to the General Commission on Archives and History, P.O. Box 127, Madison, NJ 07940.

Detailed use restrictions relating to our collections can be requested from the office of the archivist at the General Commission on Archives and History. Before using any material for publication from this collection a formal request for permission to publish is expected and required.

### Source of Acquisition

This material was acquired under paragraph 1711 of the *Discipline* of The United Methodist Church which requires a normal and routine transfer of agency records to the Archives. Please contact the Archives if you have any questions about the origin or transfer procedure of an individual series, or components, of this collection.

### Preferred Citation

When citing material from this collection please use the following format: *Direct reference to the item or its file folder*, Missionary Files - 1897-1940, United Methodist Church Archives - GCAH, Madison, New Jersey.

## History Note

For a complete history please refer to the Agency history volume for this record group. This correspondence was begun under the Board of Foreign Missions of Methodist Episcopal Church and continued by the Division of Foreign Missions of the Board of Missions and Church Extension of the Methodist Church.

## Scope and Content Note

This section of the Missionary files series is composed of correspondence to missionaries from the Board and from missionaries to the Board. The incoming and out-going correspondence are filed together under each missionary's name. The files may contain reference material about missionaries, or about mission stations or conferences.

The time span of the material is from 1912-1949.

## Organization and Arrangement

The material is arranged by geographic location and then by conference or area. Within this structure the files were arranged in a haphazard fashion. There was no attempt to impose any order on the files at this level. In some cases, files, which appear to belong in the missionary administrative series, have been left in this series. This is because they were surrounded by missionary files and most of the correspondence is actually directed toward one person, rather than to the institution.
