GENERAL PREFACE

Immune from the destructive revolutionary movements of many continental countries, the English aristocracy has always been noted for the riches of its archives. One of the most notable examples of a long-surviving and excellently documented family is the Hastings family.

Harvester Microform are therefore proud to publish the Correspondence of the Hastings family which forms a major part of the Hastings Collection of Manuscripts in the Huntington Library, San Marino, California. This spans more than four centuries and constitutes an invaluable source for all research into British social, political and religious history.

Divided into two parts - Part 1, 1477-1701, and Part 2, 1701-1828 - the Correspondence demonstrates the key role of the landed aristocracy in British political, religious and social life. Every aspect of the family's affairs and its involvement in national and local issues is illuminated by the letters. Correspondents range from monarchs, politicians, churchmen and other public figures to estate agents, tenants and family friends.

To accompany this microfilm edition a new complete listing has been compiled and issued separately for each part. Prior to this no satisfactory finding aid existed.

Each document is stored within a separate folder on the front of which is written the date, the correspondent, the addressee and the HA (Hastings Correspondence reference) number. This information was abstracted by Harvester Microform to produce a chronological listing in the order of the collection. The reel and box numbers are also given. For the first time scholars will thus be able to scan this listing to locate easily any particular document or series of documents.

Inevitably the names of some correspondents and addressees feature more prominently in some boxes than others. When a name appears frequently in any box an abbreviation is used and this abbreviation is given in brackets at the end of the first appearance of the name. Each box is treated as a separate item and a name abbreviated in one box may not be abbreviated in the following one.

Harvester Microform would like to thank the Huntington Library for their permission to make available this major

new research source and especially Dr. Mary Robertson, Curator of Manuscripts, for all her help and encouragement. We also wish to give our thanks to the photographic studio of the Huntington Library.

A special note of thanks must be given to Megan Stuart-Jones for all her care, attention and skill in compiling this Listing and Guide.

Alastair Everitt,
Managing Director,
3 July 1986
