BRITAIN AND EUROPE DURING 1996

This is the bibliographical guide to the twenty fourth annual update to the PSS (Primary Social Sources) collection, *Britain and Europe Since 1945* which contains 26,000 pages of literature issued by 67 groups and organisations between 1945-1972. The 1996 update includes the documents relating to European integration issued in 1996 from the 29 single and multi-interest groups and organisations contributing to this collection. A number of items of an earlier date, not previously included may be found in this update.

Attention should be drawn to the nature of some of the original material reproduced. Pamphlet and leaflet material was usually produced with an eye to economy, and many are printed on poor paper. These original characteristics present difficulties of image and contrast which stringent tests and camera alterations cannot entirely overcome. These limitations also exist with privately duplicated materials from which a successful image is not always possible.

Every effort has been made to minimise these difficulties and we have tried to live with the problems in the interests of having as comprehensive a collection as possible. We have sought to exercise responsible care and to meet the standards established by the Association for Information and Image Management (AIIM) and the American National Standards Institute (ANSI).

PARTICIPATING ORGANISATIONS

This list gives all groups and organisations participating In *Britain and Europe during 1996*. Some of the groups which participated previously have not done so in this update.

The following list of all participating groups/organisations will enable easy reference. Descriptions of those which have participated in previous collections are to be found in the relevant Bibliographical Guides.
