## BRITAIN AND EUROPE DURING 1997

This is the bibliographical guide to the twenty fifth annual update to the PSS (Primary Social Sources) collection, *Britain and Europe Since 1945* which contains 26,000 pages of literature issued by 67 groups and organisations between 1945-1972. The 1997 update includes the documents relating to European integration issued in 1997 from the ? single and multi-interest groups and organisations contributing to this collection. A number of items of an earlier date, not previously included may be found in this update.

Attention should be drawn to the nature of some of the original material reproduced. Pamphlet and leaflet material was usually produced with an eye to economy, and many are printed on poor paper. These original characteristics present difficulties of image and contrast which stringent tests and camera alterations cannot entirely overcome. These limitations also exist with privately duplicated materials from which a successful image is not always possible.

Every effort has been made to minimise these difficulties and we have tried to live with the problems in the interests of having as comprehensive a collection as possible. We have sought to exercise responsible care and to meet the standards established by the Association for Information and Image Management (AIIM) and the American National Standards Institute (ANSI).

## **PARTICIPATING ORGANISATIONS**

### **DESCRIPTION OF GROUPS AND ORGANISATIONS**

There follows a description of groups that are new to this collection.

#### **ACTION CENTRE FOR EUROPE (formerly FOUNDATION FOR EUROPEAN POLITICAL STUDIES)**

c/o 2 Queen Anne's Gate, London SW1H 9AA

The Action Centre for Europe Ltd (ACE) was founded in 1995. Its main activity is to commission and publish original papers by independent academic and other experts on key topics relating to the European Union, with a view to stimulating public discussion. ACE is a company limited by guarantee. It is independent of any political party or group, and is financed by the sale of publications and by voluntary donations from individuals, companies and organisations.

#### **BANK OF ENGLAND**

Threadneedle Street, London EC2R 8AH

The Bank of England continues to see their main role as helping to prepare the UK financial and business community for the euro by disseminating information, communicating widely about relevant issues and progress in addressing them; identifying where co-ordinated activity is needed, particularly in developing the infrastructure of the financial economy to embrace the euro; helping to ensure that the necessary work is agreed and undertaken; acting as a catalyst to stimulate private sector activity where necessary; putting groups facing similar or inter-related problems in touch with each other.

**BRITISH WEIGHTS AND MEASURES ASSOCIATION**

45 Montgomery Street, Edinburgh EH7 5JX

The British Weights and Measures Association opposes wanton abandonment of our traditional weights and measures, and asks for support in a campaign of opposition to compulsory metrication.

**BRUGES GROUP**

Suite 216, Linen Hall, 162-168 Regent Street, London W1R 5TB

Since our foundation in February 1989 Bruges Group publications have sought to demolish the collectivist and corporatist myths of post-war European politics. The notion of the inevitability of federalist ideas has been destroyed by outward, liberal and free-thinking arguments put forward by Brugists. These have ably supported the political logic and intellectual coherence of Margaret Thatcher's Bruges speech so that our present position is one of intellectual strength. (Occasional Paper No. 23)

**CAMPAIGN AGAINST EURO-FEDERALISM**

57 Green Lane, Wallasey Village, Wirral L45 8JQ

The Campaign against Euro-federalism (CAEF) has made a consistent and principled stand in working with all social classes opposed to EMU and EU or particular aspects of EU in broad campaigns at national and international levels (except Fascists and fascists). This has been done through a platform based on internationalism, the right of nations to self determination and national democracy and without abandoning principles of the labour and trade union movement.

**CENTRE FOR POLICY STUDIES**

52 Rochester Row, London SW1P 1JU

The Centre for Policy Studies is supported by a number of Associates who share the combined ideals of free markets, limited governments and individual responsibility, which, in 1974, it was founded to promote.

**CITY OF LONDON CONCERN OVER MAASTRICHT (COLCOM)**

3rd Floor, 24 Lime Street, London

The aim of COLCOM is to promote and encourage knowledge of, and debate about, the Treaty of European Union especially its impact on the business of the City of London.

**CONFEDERATION OF BRITISH INDUSTRY**

103 New Oxford Street, London WC1A 1DD

A voluntary body formed in 1965 from the amalgamation of the British Employers' Confederation, the Federation of British Industries and the National Association of British Manufacturers. It is now regarded by government, trade unions and industrial companies as representative of the management side of industry.

**CONSERVATIVE GROUP FOR EUROPE**

Steppington Cottage, Tarrant Gunville, Blandford, Dorset DT11 8JU

The Conservative Group for Europe brings together members of the party who support the long-standing Conservative position that Britain must be at the heart of Europe. The CGE believes Britain must take a position, constructive lead in developing the European Union. It is affiliated to the National Union of Conservative Associations.

## CONSERVATIVE WAY FORWARD

PO Box 66, London SW1P 3JL

During her years in Downing Street Margaret Thatcher did so much to turn her vision of individual ownership and freedom of choice into reality. Conservative Way Forward (CWF) was founded to defend and build upon these achievements, and develop still further these ideals, within the Conservative Party.

CWF believes that it is essential that the Conservative Party remains on the common ground of British politics, representing the shared instincts of the British people. To do so requires a constant effort to ensure that the Conservative Party remains at the forefront of the battle of ideas with a distinctive vision in favour of small government, a property owning democracy, tax cuts, deregulation and national sovereignty.

## DEMOS

9 Bridewell Place, London EC4V 6AP

Demos is an independent think tank committed to radical thinking on the long-term problems facing the UK and other advanced industrial societies. It aims to develop ideas - both theoretical and practical - to help shape the politics of the twenty first century, and to improve the breadth and depth of political debate. Demos publishes books and a quarterly journal and undertakes substantial empirical and policy oriented research projects. In all of its work Demos brings together people from a wide range of backgrounds in business, academia, government, the voluntary sector and the media to share and cross-fertilise ideas and experiences.

**EUROFACTS**

The June Press, PO Box 9984, London W12 8WZ

Eurofacts provides accurate analysis and balanced comment on Britain's place in the world and her commercial and security needs, on the basis that Britain must look far more to the wider world for her well-being than to Europe. Eurofacts believes in government by British institutions answerable only to the democratically elected Westminster Parliament, and the undiluted sovereignty of the British people over that Parliament. Eurofacts is a fortnightly newsletter with a separate monthly review providing detailed coverage of defence, foreign policy, trade, industry, agriculture and other matters. It is published by The June Press Ltd, a company which is independent of other media groups and political parties.

**EUROPEAN FOUNDATION**  
61 Pall Mall, London SW1Y 5XY

The majority of the people of the United Kingdom want effective involvement in the European Community and are against a federal and unitary Europe.

The Great College Street Group was formed in October 1992 in order to oppose the Maastricht Treaty. The group, consisting of academics, businessmen, lawyers and economists provided comprehensive briefs in the campaign to win the arguments in Parliament and in the country. So successful was the campaign that the Government had to resort to a confidence motion to get its legislation through. Days later, on 1st August 1993, what remained of the ERM, the centrepiece of economic and monetary union, itself the heart of the Maastricht Treaty, collapsed.

The creation of the European Foundation ("the Foundation") ensures that this work can go forward. The task now is to mount a vigorous and constructive campaign in the United Kingdom and throughout Europe for the reform of the EC as a community of independent sovereign states.

**EUROPEAN PARLIAMENTARY LABOUR PARTY**  
2 Queen Anne Gate, London SW1H 9AA

The European Parliamentary Labour Party is made up of British Labour Party members of the European Parliament. The Labour Euro MPs are Labour's voice in Europe and work alongside the British government.

**EUROPEAN RESEARCH GROUP**

3 Dean's Yard, London SW1A 3NR

The European Research Group was founded in 1994. It brings together parliamentarians from 35 Centre-Right parties in 24 European countries opposed to political union. ERG believes that a rift has emerged between the peoples of Europe and their governments on the issue of integration, and that this is neither healthy nor democratic. It is the role of legislators to reflect the views of their constituents to their governments, and ERG campaigns at pan-European level for positive reform of the EU.

**THE GREEN PARTY**

1a Waterlow Road, London N19 5NJ

The Green vision for Europe is based on economic security rather than blind economic growth; on environmental protection rather than environmental destruction; and on cooperation rather than insularity and separation.

## INSTITUTE OF ECONOMIC AFFAIRS

2 Lord North Street, Westminster, London SW1P 3LB

The Institute is a research and educational charity. It is a company limited by guarantee, controlled by Managing Trustees, independent of any political party or group, and financed by sales of publications, conference fees and voluntary contributions from individuals and organisations.

Incorporated in 1955, it began publishing regularly in 1957. It specialises in studies of markets and pricing systems as technical devices for registering preferences and apportioning resources. Micro-economic analysis forms the heart of economics and of the work of the Institute: such analysis is relevant and illuminating in both the public and private sectors, and in collectivist, individualist and 'mixed' economies.

## LIBERAL PARTY

1a Pine Grove, Southport, Merseyside PR9 9AQ

Unlike the three main parties, the Liberal Party opposed the Maastricht Treaty. We believe that the European Union (EU) now being built will be a centralised and undemocratic super-state. This is not the Liberal vision of Europe. We are alarmed at the prospect of a single European economy which we believe to be both undesirable and unworkable.

## LINKS EUROPA

21 Connaught Road, Harpenden, Hertfordshire AL5 4TW

Links Europa is the journal of the Internationalist Socialist Foundation which is published in both Dutch and English.

**THE MACLEOD GROUP**

Abbey House, 4 Abbey Orchard Street, Westminster, London  
SW1P 2JJ

The Macleod Group of Conservative Members of Parliament believes that a prosperous and civilised society needs both a competitive economy and a compassionate social policy: policies which encourage the dynamic and strong, and protect the vulnerable and weak. Its ideal is that of Tory Democracy: affirming its commitment to "trust the people" within a tolerant society.

**NEW EUROPE**

39 St James's Place, London SW1A 1NS

Christian churches in Britain and other organisations with neither political party affiliations nor commercial ambitions have declared their commitment to an ever closer union among the peoples of Europe. The original vision of this union, as expressed in the preamble to the treaty of Rome, has faded.

Our purpose, as members of British churches and other organisations, is to rekindle enthusiasm and hope for that objective. We believe that our European continent with its rich diversity should be united in common enjoyment of lasting peace, liberty, security and prosperity, and should pursue its vocation in promoting the Christian vision of humanity. This is the intent of New Europe.

**SAVE BRITAIN'S FISH**

60 Harrington Street, Cleethorpes, North East Lincolnshire  
DN35 7BD

Save Britain's Fish is one of some 20 member organisations of the Anti-Maastricht Alliance, an organisation campaigning against the further centralisation and unification of the Western European countries.

**SOCIAL CREDIT INTERNATIONAL**  
BCM SOCRED, London WC1N 3XX

This journal supports and furthers the policy of the original Social Credit Secretariat, founded round C.H. Douglas in 1933. Like today's Social Credit Secretariat, this journal is non-party and non-class, neither connected with nor favouring any one group in a material sense.

**THESE TIDES**  
BP6, Bxl 46, B-1047, Brussels, Belgium

These Tides aims to provide the movements and positive journalists with a service. These Tides acts as an exchange for information, ideas, assistance and activities as well as taking an active role in assisting these activities.

**TORY REFORM GROUP**  
Abbey House, 4 Abbey Orchard Street, London SW1P 2JJ

The Tory Reform Group, a national political pressure group, is a forum for debate and the formulation of policy in the Conservative Party. Our members are active Conservatives working at all levels within the Party who draw on the moderate, "One nation" tradition to define a Conservative interpretation of the social market approach to politics. We see a mutually beneficial relationship between market efficiency and social justice.
