# Britain and Europe during 1974

This bibliographical guide to *Britain and Europe during 1974* accompanies the Harvester/PSS microfiche collection of material produced throughout 1974. It is the second supplement to the 'package' *Britain and Europe since 1945*, which contains 26,000 pages of literature issued by 67 groups and organisations. This 1974 update includes material contributed by 33 pressure groups and organisations. In addition to material issued during 1974 certain documents in the period 1945-73 are added to the collection and supplied with this update. This extra material was located after the initial 'package' had been produced.

The debate about Britain's membership of the European Community continues. The two General Elections held in 1974 afforded those, who were concerned about Britain and the Common Market, with an opportunity for increased activity and discussion of the fundamental issues. The Labour government elected in February brought with it proposals for renegotiation of the British terms of entry, and the promise of a referendum to enable the people of Britain to make the final choice. On 1 January the Keep Britain Out Campaign, after a quiescent period in 1973, returned to action as the Get Britain Out Campaign, and changed its title once again towards the end of the year to the Get Britain Out Referendum Campaign. In 1974, no less than in Britain's year of entry and in preceding years, widespread interest and concern was expressed by many sides. The activity on the subject and these themes is reflected in the literature in this collection.

## PLACE/DATE OF PUBLICATION/AUTHORSHIP

Publication dates are given as in the original imprint, except for undated items. Where the date of publication (or origination) has been inferred from reliable internal or external evidence the conventional form has been adopted: n.d., [1974?]. Where no named author is listed the item was issued anonymously. The place of publication is normally the address of the issuing body.

# How to use the Index

As with the first collection concerned with the Common Market debate this update—which contains material issued during 1974—is arranged on the same easily-used and fully-indexed system. In a matter of moments the index takes you from your need for a particular item to the exact document you require.

## Harvester/PSS unique page numbers

The Harvester/PSS unique page number again appears in the top left-hand corner of each page. As before the number on the *first* page of each document is the reference allocated to that particular document. This is the reference you will find in the index. Thus an item of 16 pages with page numbers, say 80–95, will be identified by number 80. The numbering of each group in the 1974 update follows in sequence from the numbering of the material produced by the group in the first 'package'. For example, the last page of *Agenor* in *Britain and Europe during 1973* was numbered 2008, so the first page of *Agenor* in the 1974 update is 2009.

## How to find an individual item on microfiche

This follows the same principles as in the first collection. Consult either the Chronological Index, the Author Index, or the Title Index to find the title you want. Each document has been allocated a two-letter code. Before this code is a number, which identifies the 'package', followed by 1974 in brackets, which signifies the year of the update. The number after the two-letter code is the number of the specific document.

Suppose you want the pamphlet *Common Market – the way out*, by Douglas Jay, which was published by the Common Market Safeguards Campaign in 1974. You can look for this in any of three places.

### A. Chronological Index

You may know that the item was issued by the Common Market Safeguards Campaign. In the Chronological Index this group is given the *Britain and Europe since 1945* package number 1, the update number (1974) and the two-letter code FZ. Thus, the Common Market Safeguards Campaign looks like this:

1 (1974) FZ

1 is the 'package' reference (i.e. *Britain and Europe since 1945*). (1974) is the year of the update. FZ is the group reference.

Each document has been allocated a unique number within the group and this particular document will look like this:

1 (1974) FZ 217 JAY, Douglas. *Common Market—the way out*. April 1974, 13pp.

**B. Author Index**

1 (1974) FZ 217 is the unique code for this specific document and in the Author Index it appears like this:

Jay, Douglas. *Common Market—the way out*. Common Market Safeguards Campaign, April 1974, 13pp. 1 (1974) FZ 217.

**C. Title Index**

In the Title Index it appear like this:

*Common Market—the way out*, by Douglas Jay. Common Market Safeguards Campaign, April 1974, 13pp. 1 (1974) FZ 217.

When you have the complete code for the document, find the 'package' in the Harvester/PSS collection. This is easily identified by the colour yellow used on all microfiche in this 'package', through the eye-readable name of the 'package' and through the 'package' number '1' which precedes each code. To identify the year of the update look at the date in brackets next to the package number e.g. (1974).

Then locate the group by the two-letter code. Then pick out the fiche on which the document number appears. Several documents are often filmed on one fiche and the fiche reference will read 1 (1974) FZ 198 – 235. Your document 1 (1974) FZ 217 will appear on this fiche.

Insert the fiche in the micro-viewer and move the fiche to read the document you want.

## NOTE

*GET BRITAIN OUT CAMPAIGN* (1974 – continuing) (formerly *KEEP BRITAIN OUT CAMPAIGN*, 1963-1973) 67 Upper Berkeley Street, London W1.

On 1 January 1974, the first anniversary of Britain's accession to the European Community, the Keep Britain Out Campaign, transformed by circumstances, became the Get Britain Out Campaign. Mr Christopher Frere-Smith continues as chairman. Sir Ian McTaggart Bt. and Richard Body M.P. are vice-chairman. The Campaign's new manifesto is signed by 25 people from a wide range of fields – businessmen, trades union leaders, academics, literati, and Labour and Conservative politicians. It states vehemently the Campaign's rejection of the twin principles of the EEC—Community preference and supranational authority. Activity during 1974 was also directed towards discussion with the government on the mechanics of holding a referendum: and the title was extended to the Get Britain Out Referendum Campaign.

All other group descriptions will be found in the Bibliographical Guides to BRITAIN AND EUROPE SINCE 1945 and BRITAIN AND EUROPE DURING 1973, the companion volumes to the microfiche collection of source material. The Bibliographical Guides also contain descriptions of Groups now defunct which are listed below.
