BRITAIN AND EUROPE DURING 1985

This bibliographical guide to Britain and Europe during 1985 accompanies the Harvester/PSS microfiche collection of material produced throughout 1985. It is the thirteenth supplement to the 'package' Britain and Europe since 1945, (previously published by Harvester), which contains 26,000 pages of literature issued by 67 groups and organisations between 1945-1972. This update includes material contributed by 28 groups and organisations and, in addition to material produced in 1985, there are a number of items of an earlier date, not previously included.

Ten years after the 1975 Referendum controversy still surrounds Britain's participation in the European Economic Community. In 1985 the Community Budget and the Community Agricultural Policy were the principal objects of dissension. On 22nd January, 1985 the British Parliament approved the payment to the EEC of a "reimbursable advance" of 201,000,000 ECU. The action drew sharp criticism both in and outside of the House over the legal propriety and economic justification of paying such an advance. The existences of vast food surpluses also invited invective - especially when a famine raged in North Africa - and talks continued between the member countries to radically restructure agricultural policy. On a more positive note, Spain and Portugal signed an Accession Treaty to join the Community on 12th June 1985. This was preceded by the re-opening of the frontier between Gibraltar and Spain in February 1985, and discussions on the sovereignty of Gibraltar between Britain and Spain. In contrast, Greenland set an ominous precedent by withdrawing from the EEC on 1st February, 1985. However, Government policy dictates that Britains future lies within the EEC, and at the election of the new European Commission for the period 1985 to 1988, Britain achieved senior representation through Lord Cockfield (Conservative), as one of five Commission Vice-Presidents, and Stanley Clinton Davis (Labour), as one of eight appointed Members.

PLACE/DATE OF PUBLICATION/AUTHORSHIP

Publication dates are given as in the original imprint, except for undated items. Where the date of publication (or origination) has been inferred from reliable internal or external evidence the conventional form has been adopted:

n.d. 1985? Where no named author is listed the item was issued anonymously. The place of publication is normally the address of the issuing body.

HOW TO USE THE INDEX

As with the first collection and previous updates concerned with the Common Market debate, this update - which contains 1985 material issued during 1985 is arranged on the same easily-used and fully-indexed system. In a matter of moments the index takes you from your need for a particular item to the exact document you require.

HARVESTER/PSS UNIQUE PAGE NUMBERS

The Harvester/PSS unique page number again appears in the top left-hand corner of each page. As before the number on the first page of each document is the reference allocated to that particular document. This is the reference you will find in the index. Thus an item of 16 pages with the page numbers, say 80 - 95, will be identified by number 80. The numbering of each group in the 1985 update follows in sequence from the numbering of the material produced by the group in the last collection. For example, the last page of Agenor in Britain and Europe during 1984 was numbered 3954 so the first page of Agenor in the 1985 update is 3955.

HOW TO FIND AN INDIVIDUAL ITEM ON MICROFICHE

This follows the same principles as in the previous collection. Consult either the Chronological Index, the Author Index, or the Title Index to find the title you want. Each document has been allocated a two-letter code. Before this code is a number, which identifies the 'package' followed by 1985 in brackets, which signifies the year of the update. The number after the two letter code is the number of the specific document.

Suppose you want to read the European Democratic Group pamphlet by Christopher Jackson entitled World hunger, issued in March 1985. You can look for it in any of three places.

A. Chronological Index

You know that the item was issued by the European Democratic Group. In the Chronological Index this group is given the Britain and Europe since 1945 package number 1, the update number (1985) and the two-letter code LA. Thus the European Democratic Group looks like this:

1(1985)LA

1 is the 'package' reference. (1985) is the year of the update. LA is the group reference.

Each document has been allocated a unique number within the group and this particular document will look like this:

1(1985)LA 2977 JACKSON, Christopher. World hunger.
March 1985, 6pp. (European
Conservative Brief).

B. Author Index

1(1985)LA 2977 is the unique code for this specific document and in the Author Index it appears like this:

Jackson, Christopher, World hunger. European Democratic Group, March 1985, 6pp. (European Conservative Brief).
1(1985)LA 2977.

C. Title Index

In the Title Index it appears like this:

World hunger, by Christopher Jackson. European Democratic Group, March 1985, 6pp. (European Conservative Brief).
1(1985)LA 2977.

When you have the complete code for the document, find the 'package' in the Harvester/PSS collection. This is easily identified through the eye-readable name of the 'package' and through the 'package' number '1' which precedes each code. To identify the year of the update look at the date in brackets next to the package number e.g. (1985).

Then locate the group by the two-letter code. Then pick out the fiche on which the document number appears. Several documents are often filmed on one fiche and the fiche reference will read 1(1985)LA 2950 - 3036. Your document 1(1985)LA 2977 will appear on this fiche.

Insert the fiche in the micro-viewer and move the fiche to read the document you want.
