## INTRODUCTION

The **History of Education**, a retrospective monograph collection on microfiche, consists of educational treatises and general works in education published from the fifteenth through the nineteenth centuries. As a research collection, **History of Education** is designed to be comprehensive in scope, encompassing five centuries of published educational material. Modern educational theory and practice has been profoundly influenced by the major writers contained in this collection. The **History of Education** will be based on the extensive holdings of the Milbank Library, Teachers College at Columbia University, and the inclusion of holdings from other institutions is in the planning stages.

Portions of the collection are published as units, four times yearly; each unit contains approximately 1,250 microfiche cards. The current unit (15) consists of microfiche numbers 17,509 - 18,758, equivalent to a total of 548 titles. The unit contains a wide variety of subject areas, including: American and European elementary, secondary, and university education, religious education, public schools, universities and colleges, educational law and legislation, and teacher training. Works by Gabriel Compayré, Harriette M. Mills, Birdsey Grant Northrop, Celestin Hippeau, and Noah Webster are included.

The **History of Education** collection will eventually contain 9,000 to 12,000 titles on 49-frame positive microfiche with a reduction ratio of 24x. This film, employing a silver halide emulsion, meets all industry standards for archival permanence. The microfiche heading has been designed to industry standards. The eye-legible, abbreviated title of each work is centered on the top line of the Document Description Area, with the author and imprint date appearing directly beneath. The information contained in the right-hand field of the heading, the Sequential Information Area, offers identification unique to the work: the sequential fiche number in the unit, the number of fiche cards comprising the title, the sequential card number for the title, and the range of pages filmed on the card. The Identification Area is left blank for any local information that libraries may wish to add to the heading. Each entry in this guide contains the main entry, title, imprint information, and the sequential fiche number or range of numbers.

HISTORY OF EDUCATION

FICHE 1283  
CARD 1 of 3  
pp.[1]-77

This guide provides access to the unit by main entry and by fiche number. Each entry has been checked in the Library of Congress Name Authority File. If not found, it is searched in the NUC Pre-1956 Imprints and, finally, in one of the national bibliographies. In the event that a name does not appear in any authority source, the title page form is used. Fiche numbers follow each record and correspond to the microfiche numbers for that title.
