## BRITAIN AND EUROPE DURING 1981

This bibliographical guide to Britain and Europe during 1981 accompanies the Harvester/PSS microfiche collection of material produced throughout 1981. It is a ninth supplement to the 'package' Britain and Europe since 1945, (previously published by Harvester), which contains 26,000 pages of literature issued by 67 groups and organisations between 1945-1972. This update includes material contributed by 33 groups and organisations and, in addition to material produced in 1981, there are a number of items of an earlier date, not previously included.

1981 saw the entrenchment of attitudes towards the Common Market, with the bite of the international recession causing members to be even more aware, and pressing, regarding their own interests. This caused further difficulties for the various attempts to introduce change and reform in the EEC, and agreement on CAP and budget contributions seemed as far away as ever. Anti-Marketeters were not slow to point out the apparent disadvantages of membership but their increasing support remained quiet in the face of the question "Whither Britain?" - or any other country for that matter - if it left the Common Market.

### PLACE/DATE OF PUBLICATION/AUTHORSHIP

Publication dates are given as in the original imprint, except for undated items. Where the date of publication (or origination) has been inferred from reliable internal or external evidence the conventional form has been adopted: n.d. 1981? Where no named author is listed the item was issued anonymously. The place of publication is normally the address of the issuing body.

S.A.

## HOW TO USE THE INDEX

As with the first collection and previous updates concerned with the Common Market debate, this update - which contains 1981 material issued during 1981 is arranged on the same easily-used and fully-indexed system. In a matter of moments the index takes you from your need for a particular item to the exact document you require.

## HARVESTER/PSS UNIQUE PAGE NUMBERS

The Harvester/PSS unique page number again appears in the top left-hand corner of each page. As before the number on the first page of each document is the reference allocated to that particular document. This is the reference you will find in the index. Thus an item of 16 pages with the page numbers, say 80 - 95, will be identified by number 80. The numbering of each group in the 1981 update follows in sequence from the numbering of the material produced by the group in the last collection. For example, the last page of Agenor in Britain and Europe during 1980 was numbered 3339, so the first page of Agenor in the 1981 update is 3340.

## HOW TO FIND AN INDIVIDUAL ITEM ON MICROFICHE

This follows the same principles as in the previous collection. Consult either the Chronological Index, the Author Index, or the Title Index to find the title you want. Each document has been allocated a two-letter code. Before this code is a number, which identifies the 'package' followed by 1981 in brackets, which signifies the year of the update. The number after the two-letter code is the number of the specific document.

Suppose you want to read the European Democratic Group pamphlet by Michael Welsh entitled Trade equals jobs. The case for a common trade policy for the EEC. Foreword by Sir Fred Catherwood issued in October 1981. You can look for this in any of three places.

#### A. Chronological Index

You know that the item was issued by the European Democratic Group. In the Chronological Index this group is given the Britain and Europe since 1945 package number 1, the update number (1981) and the two-letter code LA. Thus the European Democratic Group looks like this:

1(1981)LA

1 is the 'package' reference. (1981) is the year of the update. LA is the group reference.

Each document has been allocated a unique number within the group and this particular document will look like this:

1(1981)LA 1275. WELSH, Michael. Trade equals jobs. The case for a common trade policy for the EEC. Foreword by Sir Fred Catherwood. October 1981, 26pp.

#### B. Author Index

1(1981)LA 1275 is the unique code for this specific document and in the Author Index it appears like this:

Welsh, Michael, Trade equals jobs. The case for a common trade policy for the EEC. Foreword by Sir Fred Catherwood. European Democratic Group, October 1981, 26pp.  
1(1981)LA 1275.

#### C. Title Index

In the Title Index it appears like this:

Trade equals jobs. The case for a common trade policy for the EEC, by Michael Welsh. Foreword by Sir Fred Catherwood. European Democratic Group, October 1981, 26pp. 1(1981)LA 1275.

When you have the complete code for the document, find the 'package' in the Harvester/PSS collection. This is easily identified through the eye-readable name of the 'package' and through the 'package' number '1' which precedes each code. To identify the year of the update look at the date in brackets next to the package number e.e. (1981).

Then locate the group by the two-letter code. Then pick out the fiche on which the document number appears. Several documents are often filmed on one fiche and the fiche reference will read 1(1981)LA 1241 - 1330. Your document 1(1981)LA 1275 will appear on this fiche.

Insert the fiche in the micro-viewer and move the fiche to read the document you want.

## PARTICIPATING ORGANISATIONS

This list gives all groups and organisations participating in BRITAIN AND EUROPE DURING 1981. Some of the groups which participated in previous collections are now defunct, while other groups are contributing material for the first time.

The following alphabetical list of all participating groups/organisations will enable easy reference. An asterisk indicates groups contributing material for the first time and group descriptions of these will be found below. Group descriptions of those which have participated in previous collections are to be found in the relevant Bibliographical Guides. The list below also includes the code for each group/organisation.

## DESCRIPTIONS OF GROUPS AND ORGANISATIONS

There follows a description of groups that are new to this collection.

PLAID CYMRU (1925-continuing)

51 Cathedral Road, Cardiff CF1 9HD

Britain's entry into the European Common Market has always been of prime concern to Plaid Cymru. Founded in 1925, Plaid Cymru - the party of Wales - set out to secure self-government for Wales, seeing this as the only way of preventing the complete erosion of its cultural and economic life. Not least of the party's concerns is to restore the status of the Welsh language. With Britain's entry it foresaw that Welsh interests would become even more subject to the interests of the established powers and that Welsh industry, agriculture and culture would become submerged even further in the increased centralisation of the E.E.C. The party's general position in 1971 can be summarised as "No Voice - No Entry", and events since then have not led it to revise this position. The party publishes two monthly newspapers - one in Welsh and one in English - and at the time of writing Plaid Cymru sends two Members of Parliament to Westminster.

SOCIAL & COMMUNITY PLANNING RESEARCH (1969-continuing)

Survey Methods Centre, 35 Northampton Square, London EC1V 0AX

Social & Community Planning Research is an independent non-profit making institute for social research. Based in London it undertakes surveys which are financed by government departments, local authorities, foundations, universities and other organisations concerned with the social sciences. Since its foundation it has become one of the foremost British research centres and amongst its many concerns has been the question of Britain's entry into the European Common Market. While not a pressure group, as are other organisations in this microfiche programme, the range of surveys they carried out from 1971 to 1979 provide important information and commentary on the attitudes of the British people on the Common Market and also on the statements made by the

pressure groups themselves. The surveys and reports included here were commissioned by organisations such as the European Movement, the Commission for the European Communities, European Educational Research Trust, and the European Parliament's London Information Office.
