

# Medical and Health Information Directory

Now online on *Gale Directory Library*

*Medical and Health Information Directory* is a comprehensive guide to organizations, agencies, institutions, services and information sources in medical and health-related fields. Entries represent the full range of subject areas within biomedical science and clinical medicine as well as covering the technological and socioeconomic aspects of health care.

Each edition of *Medical and Health Information Directory* features more than 95,000 entries, including more than 33,000 organizations;

nearly 20,000 libraries, publications and electronic resources; and more than 40,500 health service providers. Multiple editions are available by standing order, ensuring access to the most up-to-date information as well as historical data. Entries typically include full contact information, officer names, founding date, subject areas, publications and a description of the organization.

## Real-world users might include:

- Medical students can research organizations and institutions focusing on specific subject areas
- Health care professionals can quickly create lists of contacts for international research centers
- Users can easily identify health care providers in specific geographical areas and sort data by specialty
- And many others

## ABOUT GALE DIRECTORY LIBRARY

With *Gale Directory Library*, researchers can use state-of-the-art functionality to perform a range of data sorting, filtering and exporting. These innovative features, unlike anything seen previously from our directories, make *Gale Directory Library* the essential tool for research.

- Find contacts — Finding a company, person, publication (or other kind of entity) is easy. Basic search lets users quickly look up names, search by keyword, and browse the full text of your directory holdings.
- Generate lists, analyze trends — Export search results and use them in programs like Excel or Word, making the creation of mailing lists a snap.
- Cross-searchable — Search across our growing number of directory titles. Each directory can be searched individually by its own unique data fields, or search the entire directory collection.

## Additional benefits of *Gale Directory Library*:

- Use it like a database; buy and own it like a book collection
- State-of-the-art search, sort and export features
- Available 24/7 from any Internet-connected computer
- Choose the directory titles you want, and own the data
- Print, e-mail or download individual entries
- Entries include hot-linked Web sites and e-mail addresses (when available)
- Export results to analyze data or generate mailing lists
- Includes more data than print version, when appropriate
- Marked items lists let you select entries to generate custom results
- Available backfiles provide historical data
- Growing list of available directories
