

# Aplia

Engaging and Educating Learners through the Transformation of Homework

Homework. When learners hear the word, they think “dull” and “frustrating.” For instructors, homework can be labor-intensive and unrewarding.

Until Aplia.

Aplia, part of Cengage Learning, has transformed homework into a tool for engaging learners and making sure they come to class prepared. The result is students who learn better and are more successful.

## What is Aplia?

Aplia is an online homework solution for use with 200+ textbooks across 21 disciplines.

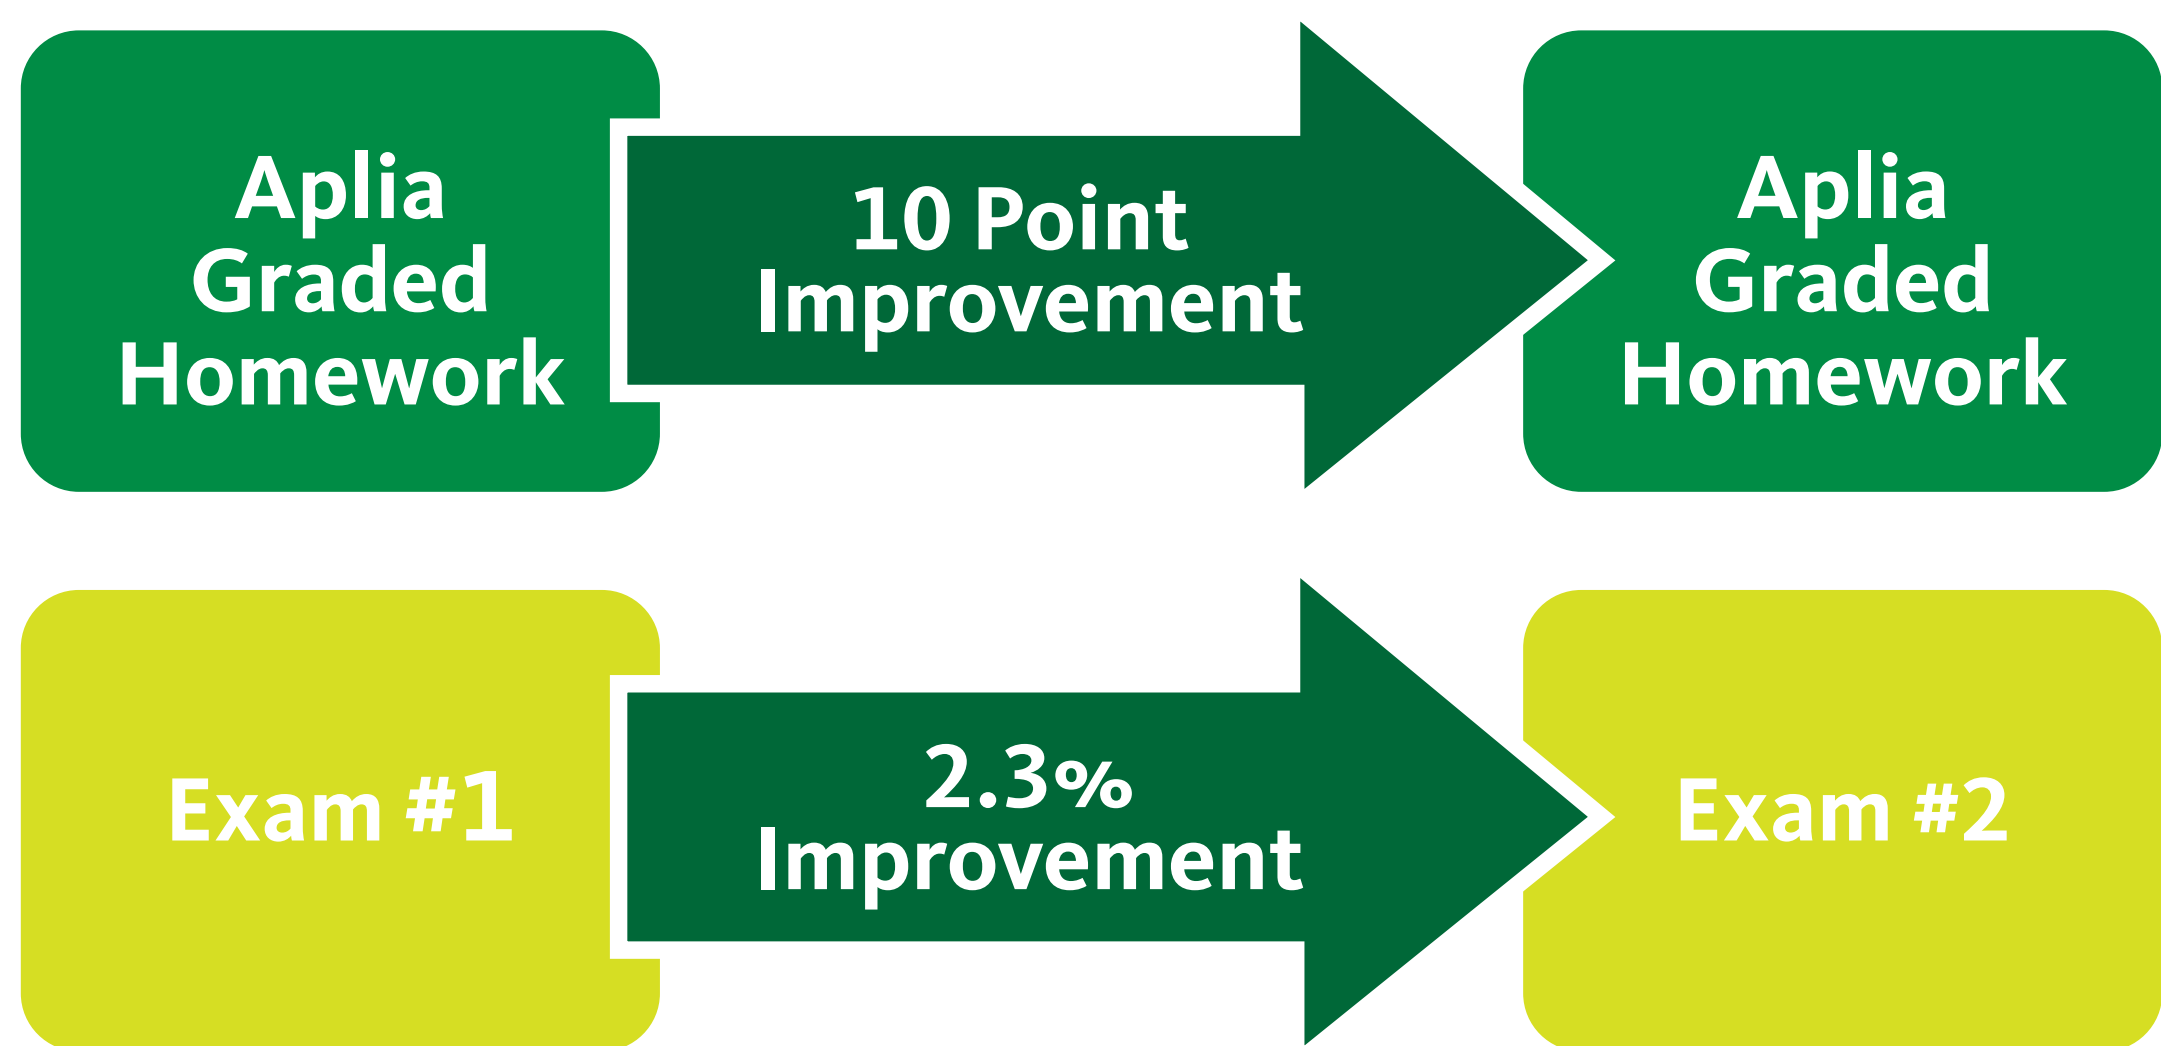

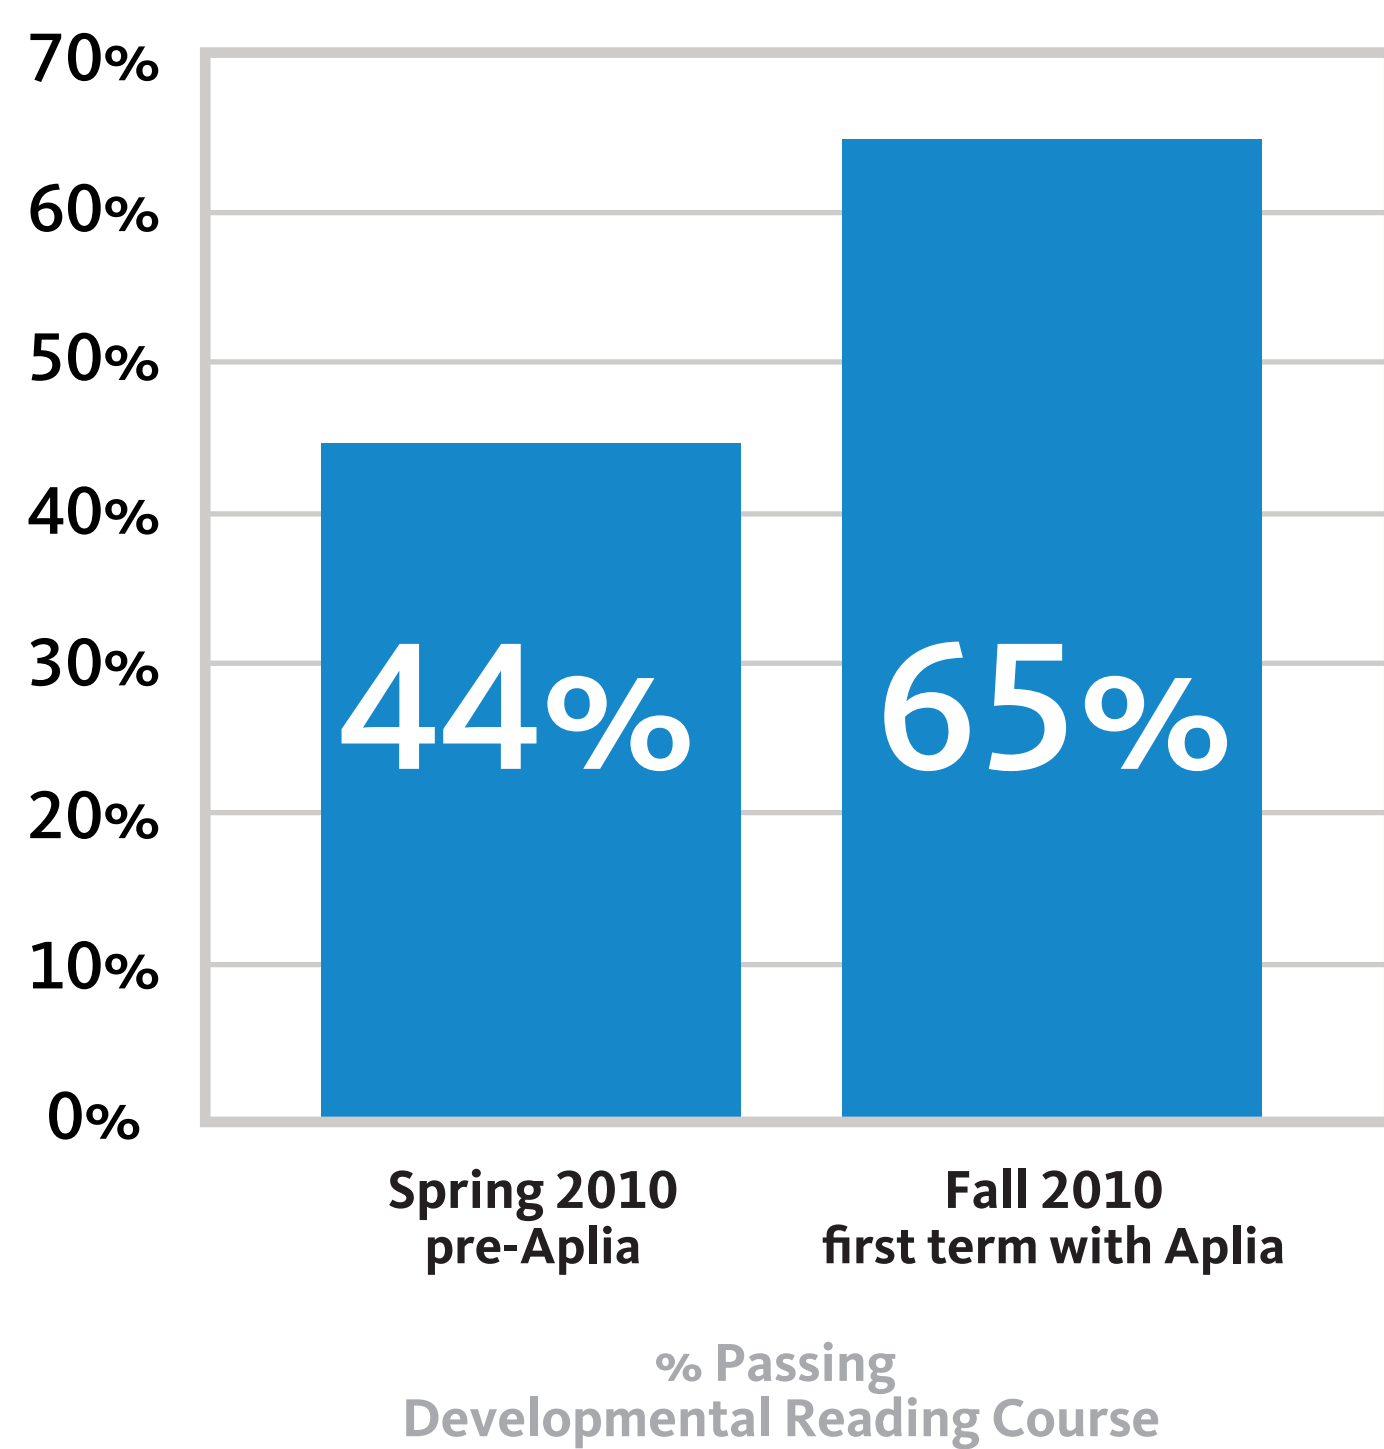

## Aplia Leads to Higher Test Scores

Grambling State University learners using Aplia in a business statistics course scored 11 percentage points higher on tests compared to those in another section of the same course not using Aplia.

## Aplia Leads to Higher Pass Rate

Mid-South Community College Case Study saw an increase of nearly 50%
